Bottle Fillers

- ☀ Top quality
- ☀ No springs means hands-off filling: pick-up to stop
- ☀ Sensitive tip is designed to allow the customer to top up the bottle if desired

The Siphon ValveSE03

- ☀ Most popular size for wine and beer
- ☀ It's 3/8" clear acrylic tubing fits a standard 5/16" x 7/16" hose
- ☀ Display box available

The Wine FillerSE04

- ☀ High capacity filler for the volume wine maker (25 bottles in 8 minutes)
- ☀ It's 1/2" acrylic tubing fits a 7/16" x 9/16" siphon hose

Racking Tubes

- ☀ Arguably the best racking tubes available, these clear acrylic tubes are a perfect accompaniment to our bottle fillers. They are carefully bent at the top with a press-on style of anti-sediment tip. These tips will not fall off with repeated use
- ☀ Sizes available:
 - 3/8" dia. x 24" long (19L/5 US Gal carboy)SE05
 - 3/8" dia. x 30" long (23L/6 US Gal carboy & demijohn)SE06
 - 1/2" dia. x 30" long (23L/6 US Gal carboy & demijohn) – rack 5 Gal in 3 minutesSE07

Racking Tube Clamps *Tired of stirring up sediment during siphoning?*

- ☀ This unique spring-loaded clamp holds the racking tube in place during siphoning. Universal design fits carboys, pails and jugs
- ☀ To use:
 1. Start the siphon with the racking tube well above the sediment. If using a bucket, tip of racking tube should rest against far wall of bucket.
 2. Slide racking tube to lowest corner.
